

**AMENDMENTS TO THE CLAIMS**

**1. Canceled**

2. (**Currently Amended**) An isolated tumor antigen peptide that is a partial peptide of a protein consisting of the amino acid sequence of SEQ ID NO: 2, wherein the peptide comprises the amino acid sequence of SEQ ID NO: 3 and binds to an HLA-A24 antigen and is recognized by cytotoxic T lymphocytes.

**3-10. Canceled**

11. (**Currently Amended**) A pharmaceutical composition for treating tumors, which comprises as an active ingredient at least one of substances selected from the tumor antigen peptides according to claim 2, 3 or 16, and a pharmaceutically acceptable carrier.

12. (**Currently Amended**) A recombinant polypeptide produced by expressing a recombinant DNA comprising at least one polynucleotide that encodes the tumor antigen peptide according to claim 2, 3 or 16.

13. (**Previously Presented**) A pharmaceutical composition for treating a tumor, which comprises as an active ingredient the recombinant polypeptide of claim 12, in an amount effective for treating said tumor and a pharmaceutically acceptable carrier.

14. (**Previously Presented**) A diagnostic agent for tumors, which comprises the tumor antigen peptide according to claim 2, 3 or 16.

15. **(Original)** A diagnostic agent for tumors, which comprises the recombinant polypeptide of claim 12.

16. **(Previously Presented)** The isolated tumor antigen peptide according to claim 2 consisting of the amino acid sequence of SEQ ID NO:3.

17-18. **Canceled**
